DeepLearning.AI

Key Skills

Jan 2, 2026

ANUJ KUMAR YADAV

has demonstrated proficiency in the curriculum of the series

Build with Andrew
Go from Idea to App in Minutes

Rapid Prototyping
Building apps quickly

Streamlit Framework
Python-based UI development

LLM Integration
Connecting APIs to Apps

AI Application Logic
Handling user inputs

This document serves as a record of independent learning based on the "Build with Andrew" curriculum designed by DeepLearning.AI. The candidate has mastered the rapid prototyping of AI applications and successfully integrated Large Language Models (LLMs) into functional web apps using Python and Streamlit. This portfolio record validates the ability to deploy AI concepts, process inputs, and handle API integration as demonstrated in the course modules.

Theory + Practical knowledge Already Applied Project: Anuj's Automated Reciept Generator based on Blockchain Technology.
