ANUJ KUMAR YADAV

has demonstrated proficiency in the curriculum of the series

ChatGPT Prompt Engineering

This document serves as a record of independent learning based on the "Build with Andrew" curriculum designed by DeepLearning.AI. The candidate has mastered the rapid prototyping of AI applications and successfully integrated Large Language Models (LLMs) into functional web apps using Python and Streamlit. This portfolio record validates the ability to deploy AI concepts, process inputs, and handle API integration as demonstrated in the course modules.
