ANUJ KUMAR YADAV

"AI is the new Electricity"

AI Builder · Vibe Coder · Freelance Web & Chatbot Developer

Email anujkumar75yadav@gmail.com **GitHub** github.com/MrAnujBabu **Portfolio** certificateportfolio.vercel.app

HIGHLIGHTS

17 verified certificates & projects

15+ AI platforms used in depth

4 edtech platforms built & live

SKILLS

AI & AGENTS

Prompt engineering, OpenAI API, LLMs, AI agents, custom chatbots, ordering bots, model selection, automation

AI PLATFORMS

Google AI Studio (Gemini), Lovable, Replit, GitHub Copilot, Hugging Face, LMArena, ChatGPT Playground, Claude, Grok, DeepSeek & R1, ElevenLabs, Sarvam AI

BUILD & BACKEND

Websites & web apps, Supabase, Firebase, no-code backend, Vercel, GitHub, Python, TypeScript, Telegram bots, Rust (agent deploy)

PRODUCTIVITY

Notion (Second Brain systems), Obsidian, Anki spaced repetition, document scanning, Brave & Firefox

SOFT SKILLS

All-rounder, fast learner, self-driven, problem solving, client handling, teaching & edtech mindset

EDUCATION

Self-taught — Vibe Coding

AI-assisted software development: building and shipping real products with AI tools.

DeepLearning.AI short courses on prompt engineering and LLM apps.

CERTIFICATION

ChatGPT Prompt Engineering for Developers

DeepLearning.AI · Jan 2026 · Verified

All 17 verified certificates & projects: certificateportfolio.vercel.app

LANGUAGES

Hindi, English

PROFILE

All-rounder AI builder and vibe coder who turns ideas into live products fast. I build websites, edtech platforms, AI chatbots and autonomous AI agents with tools like Lovable, Replit, Google AI Studio and Claude, and deploy them on Vercel, Supabase and GitHub. I run my own freelance agency and have shipped 15+ live projects, all listed with verified links on my portfolio.

EXPERIENCE

Founder & Freelance Developer — WinWin Digital Agency

Freelance · Ongoing · winwinagency.vercel.app

- Build websites, apps, edtech systems and AI chatbots for education and business clients.
- Sell ready-to-use digital products and Notion templates with fixed packages and clear INR pricing.
- Handle the full job end to end: client brief, design, build, launch and support.

Edtech Platform Builder

Coaching institutes & learning communities · Ongoing

- Built and launched **JSR Coaching Institute** (Class 9–12, SSC, Railway prep), **Sadguru Classes** (English coaching) and **Mahima Academy** (built in 3 days with Firebase, Supabase and Replit).
- Run **Naveen Bharat**, an open learning platform for science, maths and AI tools.
- Set up digital libraries for notes and PDFs — one on GitHub CDN, one powered by a Telegram storage bot.

AI Agent & Chatbot Developer

Personal & open-source projects · Ongoing

- Deployed personal autonomous AI agents (OpenClaw on Android/Telegram, ZeroClaw in Rust) and a Crawl4AI web-crawl agent.
- Build customized chatbots and ordering bots on no-code backends for small businesses.

SELECTED PROJECTS

Anuj-Sarthi.ai (SnapSolve) — AI app built from the DeepLearning.AI prompt-engineering course, using the OpenAI API. snapsolveanuj.vercel.app

Certificate Portfolio — This portfolio: 17 verified cards, contact form with database, and a password-protected admin panel that saves straight to GitHub. certificateportfolio.vercel.app

Decentralized Blockchain Receipt — Registration portal with a public blockchain ledger to verify receipts. satoshi-registration-portal.vercel.app

Obsidian Notion Toggle Plugin — Open-source TypeScript plugin: Notion-style toggles, Pomodoro timer and SM-2 spaced repetition. github.com/RR-LIBRARY/obsidian-notion-toggle

Second Brain 3.0 (Notion) — Complete Notion system with one dashboard for notes, tasks, projects and study — free to duplicate. second-bonsai-4e3.notion.site/Dashboard

ZeroClaw / OpenClaw AI Agents — Fast, small, fully autonomous personal AI agents. github.com/MrAnujBabu/zeroclaw_agent

Crawl4AI Web-Crawl Agent — LLM-friendly web crawler and scraper deployed on Google Colab. github.com/MrAnujBabu/craw4ai_anuj_web_crawl_agent
